- Python Programming CIS-2210-VO02
- Web Design 1 CIS-1151-VC01
- Intro to Photography ART-1310-VC02

## Work Experience

**Turner Toys and Hobbies** - Retail Worker 2022-Present

Turner Toys is a local, family owned and operated toy and hobby store in Williston, VT. My duties there include, customer service, receiving product, and keeping inventory. I was also responsible for building and setting up our own security camera system with a Raspberry Pi.

**Legion Studios** - 3D Artist 2021-2022

Legion Studios develops some of the most used Star Wars mods for the game ARMA 3. Their main mod, Legion Base, has over 40,000 downloads on the Steam workshop. Developed 3D art as a part of their mod team. Through this, I've had to work closely with a project manager, concept artist, and fellow 3D artists to make game-ready assets for the mod.

**Jericho Settlers Farm** - Farmhand 2015-2022

My parents run Jericho Settlers Farm in Jericho, VT. I've done various jobs there including tractor work, washing and packing product, livestock management, machinery maintenance, produce harvesting, and much more. Working on the farm has helped me to develop a good work ethic.
